

ACAC EMERGENCY ACTION PLAN

Lightning and Thunderstorm Policy

1. Any time there is thunder or lightening present, notify the member service desk that you will be closing the Waterpark due to thunder or lightning.
2. Clear all pools and let our members know why and when we may be opening the pools again. Explain our policy: closed for 20 minutes from the last sound of thunder or 30 minutes after the last sighting of lightning.
3. Place signs explaining why we are closed. Ask the member service desk to place their signs out also.
4. Station a guard at the Pool entrance and ask members not to enter the Waterpark
5. Watch and Listen for lightning or thunder
6. When it has been determined that it is safe to open, notify the member service desk and take down the signs.
7. Swim Instructors work with the Aquatics Director in re-scheduling group lessons cancelled due to Thunder and Lightning. Private lessons can be rescheduled directly with the participant via individual ACAC instructors.
